DEVELOPER STACK

- C# / ASP.NET Core
- Rust
- Python
- React / JavaScript / TypeScript
- TDD
- Docker / Kubernetes / Helm
- Terraform / CI/CD
- AWS / Azure / GCP
- Git / GitHub
- TDD
- (Test-Driven Development)
- SQL / MongoDB

LANGUAGES

- Swedish (Native)
- English (Fluent)

EDUCATION

2024 - 2026 CAMPUS MÖLNDAL

- Cloud Developer

OTHER

- Driver's license: Category B

INTERESTS

- In my spare time, I enjoy spending time with my family, working on personal software projects, and keeping up with developments in technology and software engineering.

PROFILE

Junior software developer with a strong interest in backend development, cloud technologies, and software architecture. I enjoy understanding how systems work, solving technical problems, and building practical applications that strengthen my skills.

Through personal and academic projects, I have gained hands-on experience with modern development tools, cloud platforms, containerization, and CI/CD workflows.

I am a curious and fast learner who enjoys continuously improving my technical skills while building reliable and maintainable software.

PROJECTS

Cloud-Native Bulletin Board Platform

(React, ASP.NET Core, MongoDB, Docker, Kubernetes, Terraform, AWS)

- Built a full-stack application using React, ASP.NET Core Minimal API, and MongoDB.
- Containerized the frontend and backend with Docker and deployed the application to Kubernetes using Helm.
- Implemented a GitOps deployment workflow with Argo CD and CI/CD pipelines using GitHub Actions.
- Provisioned AWS infrastructure with Terraform, including VPC, IAM, EKS, ALB, and ECR.

PROFESSIONAL EXPERIENCE

PRIORITAIRE STHLM AB

2026 - 2026

Software Developer Intern

- Contributed to a logistics platform acting as an application layer on top of the existing TMS, Opter.
- Worked on backend functionality related to booking flows, pricing logic, validation, and system integrations.
- Integrated and worked with external APIs, including Opter, DHL, UPS, and Google APIs.
- Gained practical experience with AWS infrastructure, Terraform, and CI/CD workflows.

Sunpricer AB

2019 - 2023

Sales Representative

- Worked in a fast-paced, target-driven sales environment requiring structure, prioritization, and resilience.
- Developed strong communication and problem-solving skills through daily customer interaction.
- Built a disciplined and goal-oriented approach that I now apply to software development.
