

# HUGO HEMLIN

JUNIOR FULL-STACK .NET DEVELOPER

## CONTACT

- +46 72 296 83 91
- hugohemlin@hotmail.com
- Gyllenkrooksgatan 7
  412 82 Göteborg
- github.com/luunomx
- linkedin.com/in/hugo-hemlin
- hugohemlin-portfolio.vercel.app

## TECHNICAL SKILLS

- C# / ASP.NET Core
- Python
- MongoDB / SQL
- Docker / Kubernetes
- Terraform
- Microsoft Azure
  Amazon Web Services
  Google Cloud
- Git / GitHub
- React / JavaScript / TypeScript
- TDD
  (Test-Driven Development)

## LANGUAGES

- Swedish (Native)
- English (Fluent)

## EDUCATION

**CAMPUS MÖLNDAL**
August 2024 - June 2026

- Cloud Developer

## INTERESTS

- In my spare time, I enjoy spending time with my family, working on personal software projects, and keeping up with developments in technology and software engineering.

## OTHER

- Driver's license: Category B

## PROFILE

Full-stack .NET developer with a background in sales and a hands-on approach to building reliable, maintainable applications. I work across backend services and React-based frontends using C# and .NET, with experience in containerization, infrastructure as code, and cloud platforms.

I enjoy turning complex problems into practical solutions and exploring new technologies through personal software projects. My background in sales has strengthened my communication skills and taught me to understand practical needs from the user's perspective.

## PROJECTS

**Trading & Research Platform**
*(C#, .NET, PostgreSQL, SQL, REST APIs, WebSockets, React)*

- Building a .NET BTC futures research and paper-trading workbench with multi-venue market data, regime-based strategy routing, backtesting, event replay and API control.

**BulletinBoard / Kubernetes Solution**
*(React/Vite, ASP.NET Core 8, MongoDB, Docker Compose, Kubernetes/Helm)*

- Built a full-stack demo that moves from local development to cloud-native deployment with GitOps/Argo CD and Terraform-managed AWS/EKS infrastructure.

**Portfolio & Additional Projects**

- Explore additional projects, GitHub repositories, architecture diagrams and technical breakdowns at hugohemlin-portfolio.vercel.app.

## PROFESSIONAL EXPERIENCE

**PRIORITAIRE STHLM AB** 2026
Software Developer Intern

- Owned backend development for a logistics platform built on Opter TMS in a two-developer team with a frontend-focused teammate
- Implemented booking logic, pricing decisions, validation, and system orchestration across multiple integrations
- Integrated external APIs (Opter, DHL, UPS, Google APIs) with focus on reliability, validation, and data consistency
- Worked with infrastructure and deployment workflows on AWS using Terraform and CI/CD pipelines

**Sunpricer AB** 2019 - 2023
Sales Representative

- Worked in a high-paced, target-driven environment requiring strong structure and prioritization.
- Developed problem-solving and communication skills through continuous customer interaction.
- Built a disciplined, goal-oriented approach to work under pressure.
