HARD SKILLS

- C# / ASP.NET Core
- Python
- SQL / MongoDB
- Docker / Kubernetes / Helm
- Terraform / CI/CD
- AWS / Azure / GCP
- Git / GitHub
- React / JavaScript / TypeScript
- TDD
(Test-Driven Development)

LANGUAGES

- Swedish (Native)
- English (Fluent)

EDUCATION

2024 - 2026 CAMPUS MÖLNDAL

- Cloud Developer

OTHER

- Driver's license: Category B

INTERESTS

- In my spare time, I enjoy spending time with my daughter and girlfriend, often visiting Universeum — a science center and aquarium in Gothenburg focused on technology, nature, and marine life.

PROFILE

Cloud and DevOps-focused developer with a background in sales, transitioned into tech driven by a long-standing interest in technology and a desire to work more closely with systems and problem-solving.

Experienced in designing backend systems and managing infrastructure using containerization and infrastructure-as-code tools, as well as working with modern cloud platforms.

Strong focus on automation, clean code, and continuous learning, actively building and deploying real-world systems using modern DevOps workflows.

PROJECTS

Bulletin Board Platform (React, .NET, Docker, Kubernetes, Terraform, AWS)

- Built a cloud-native fullstack application using React (Vite), ASP.NET Core Minimal API, and MongoDB
- Implemented GitOps-based deployment workflow using Argo CD with CI/CD pipelines via GitHub Actions and GHCR
- Designed and deployed scalable containerized microservices to Kubernetes using Helm, enabling automated and repeatable deployments.
- Provisioned AWS cloud infrastructure using Terraform (VPC, IAM, EKS, ALB, ECR)

PROFESSIONAL EXPERIENCE

PRIORITAIRE STHLM AB

2026 - 2026

Software Developer Intern

- Developed a production-grade logistics platform acting as a control layer on top of an existing TMS (Opter)
- Built backend services for booking logic, pricing decisions, and system orchestration across multiple integrations
- Integrated external APIs (Opter, DHL, UPS, Google APIs) with focus on reliability, validation, and data consistency
- Worked with infrastructure and deployment workflows on AWS using Terraform and CI/CD pipelines

Sunpricer AB

2019 - 2023

Sales Representative

- Worked in a high-paced, target-driven environment requiring strong structure and prioritization.
- Developed problem-solving and communication skills through continuous customer interaction.
- Built a disciplined, goal-oriented approach to work under pressure.
